

WarmHomes for Lungs

A Cheshire and Merseyside Fuel Poverty Programme

- ✓ Population health management
- ✓ Fuel poverty dashboard
- ✓ Prevention interventions
- ✓ Reduction in hospital attendance

We have reached **85** COPD patients.
100% referrals to Wellbeing Team and
 Affordable Warmth Team. **65** patients met
 the criteria for household support funds.
£32,500 paid out to improve living
 conditions in homes.

“ I have to choose between my oxygen or heating the home - but not anymore.”

Jo - COPD patient
 on WarmHomes for Lungs Service

“It is working in a different way, for these patients who are socio-economically deprived and living in poor housing. We now know the quintile of deprivation patients are living in and flagging that.”

Diane Green
 Lead COPD Nurse / Service Manager
 St Helens Community COPD Rapid Response

The CAM Fuel Poverty is a multi-agency programme that started in October 2022. St. Helens WarmHomes for Lungs started in February 2023. The ICB Fuel Poverty Steering Group is chaired by Professor Rowan Pritchard Jones.
